PROFESSIONAL SUMMARY

Product-minded designer with a bioengineering foundation and current work evaluating AI tools for digital wellness. Turns user research, competitive analysis, and market scans into clear product recommendations. Pairs systems thinking and programming with user-centered design to prototype and ship digital products.

EDUCATION

New York University, Tandon School of Engineering New York, NY
Bachelor of Science, Integrated Design and Media *Spring 2027*
Temple University, College of Engineering Philadelphia, PA
Bioengineering

EXPERIENCE

Chance AI x Adobe Studios Mentorship | Product Designer, Student Design Team Fall 2026 - Present

- Redesigning core flows of an AI visual search app with a four-person team, presenting each design stage to an industry mentor for feedback.
- Led competitive analysis of results pages across Google Lens, Pinterest, and Chance, finding that Chance's multi-step flow delayed answers users expected instantly.
- Helped map the end-to-end user flow from home screen to results and framed open product questions such as automatic categorization versus user choice.

Caravan Wellness | Product Management Intern Fall 2026 - Present

- Evaluated the market for branded AI solutions, comparing third-party platforms with in-house build options to inform a build-vs-buy recommendation. Assessing the feasibility of demonstrating guided physical therapy exercises, weighing clinical accuracy, user trust, and production effort.
- Researched AI tools, identifying opportunities to raise team productivity and content quality.

NYU Stern, Chen Institute for Global Real Estate Finance | Marketing Intern Fall 2026 - Present

- Support planning for an industry-sponsored real estate case competition, coordinating materials, timelines, and communications across students, staff, and partners.
- Update website content and digital layouts to make programs and events easier to find.
- Manage content calendars and project trackers, and track engagement metrics to guide content decisions.

S.O.B.'s (Sounds of Brazil) | Digital Marketing Intern Spring 2026 - Fall 2026

- Proposed a geofencing and digital wallet feature that surfaces tickets on guests' lock screens on arrival, reducing entry bottlenecks.
- Maintain the website using SEO and AEO practices; proposed UI improvements and evaluated AI marketing tools such as Semrush.

BeatFeed | Media & AI Researcher Spring 2026 - Fall 2026

- Track AI developments and regulatory trends, identifying pain points and impacts for creators, businesses, and technology stakeholders.

SKILLS

Product: User research, competitive analysis, usability testing, user flow mapping, wireframing and prototyping, market and vendor evaluation, systems thinking
AI: AI tool evaluation, generative AI for content and video, AI content IP and policy research, Claude, Cursor
Design: Figma, Adobe Creative Cloud, CAD
Technical: JavaScript, Python, Java, MATLAB, HTML/CSS, Git/GitHub, Arduino
