River Ramirez

New York, NY | Email: LR3546@nyu.edu

PROFESSIONAL SUMMARY

Technical Product Designer with an engineering foundation and experience spanning product development, UX design, software development, creative technology, and research. Combines programming and systems thinking with user-centered design to prototype and build digital products and interactive experiences. Experienced working across technology, healthcare, research, and entertainment environments.

EDUCATION

New York University Tandon School of Engineering — New York, NY
Bachelor of Science, Integrated Design and Media — *Expected 2027*
Temol University College of Engineering — Philadelphia, PA
Bioengineering

SKILLS

Programming Languages: JavaScript, Python, Java, MATLAB, HTML, CSS, Git/GitHub
Design & Technical Tools: Figma, Adobe Creative Cloud, Arduino, Canva, Microsoft Office Suite, Systems Thinking, UX Prototyping, Google Workspace, CAD, Claude LLM, Cursor LLM

EXPERIENCE

Undergraduate Researcher — Fall 2023 - Spring 2025
Temple University Tissue Imaging and Spectroscopy Lab — *Philadelphia, PA*
• Gained hands-on experience with Fourier-transform infrared (FTIR) spectroscopy and cellular imaging, analyzing spectroscopic and imaging data to identify patterns and interpret experimental results.
• Interpreted spectroscopy-derived graphs and quantitative data, developing an understanding of how experimental measurements translate into visual and analytical outputs.
• Assisted with bone density analysis of rat femurs, gaining experience with biomedical instrumentation and quantitative assessment of bone characteristics.

Physical Therapy Aide — May 2021 - May 2025
CEM Physical Therapy — *Clifton, NJ*
• Organized fundraiser affiliated with St. Jude Children's Research Hospital, raising over $1.2k
• Guided up to 70+ patients per shift, applying knowledge of anatomy and therapeutic protocols in a regulated clinical environment and managed front-desk operations, including patient scheduling, insurance coordination, and provider communication.

Marketing Intern — May 2026 - Present
S.O.B.'s (Sounds of Brazil) — *New York, NY*
• Proposed geofencing workflows and native digital wallet integrations to automate ticket retrieval on user lock screens upon venue arrival, cutting down entry bottlenecks.
• Moderated the company website following SEO and AEO protocols and data analysis, and mediated event listings, ultimately improving participant engagement and event attendance.
• Brainstormed implementation of "Semrush" for AI marketing, as well as began development for improving website UI to further improve SEO.

Undergraduate Teaching Assistant — Fall 2024 - Spring 2025
Temple University College of Engineering — *Philadelphia, PA*
• Mentored 50+ undergraduate students through one-on-one office hours, translating complex engineering concepts into accessible explanations to support course delivery in programming and web development and applied analytical problem-solving frameworks to instructional contexts.
